The pucca boundary wall surrounding the school campus is already in place and stands at a height exceeding 6 feet

The wall serves the dual purpose of ensuring the safety and security of the school premises and complying with the stipulated height requirements mandated by CBSE regulations.

We understand and appreciate CBSE's commitment to maintaining the quality and safety of educational institutions, and we assure you that Achievers Public School will continue to abide by all guidelines and regulations set by the board

Please feel free to contact us for any further clarification or information required in this regard

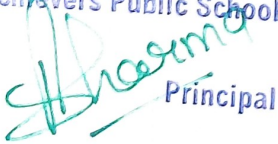

Thank you for your attention to this matter
